**Educational Furniture.** To design inspiring spaces for learning – that has always been the vital challenge that VS has set for itself. As one of the leading manufacturers of school furniture and a full-range supplier with a wide portfolio, this is exactly what we offer our customers: comprehensive, stimulating furniture solutions for educational establishments. In addition, we offer an extensive range of services such as planning, project support, and customer service.

Our products stand out for their quality, functionality, and durability, as has been proved by comparisons worldwide. The issue of sustainability is extremely important for us. And so too, of course, is safety.

We hope you enjoy browsing, discovering new ideas, and planning your space! If you need answers to any questions, advice, or project support, our qualified customer support staff will be delighted to assist you personally.

# SEATING

## Chair sizes

Correct sitting and ergonomic working can only be achieved when the student's chair is regularly adapted to suit their height. In the DIN EN 1729 standard, body height and seat/table height have been correlated and six table and seat sizes have been determined. The decisive factor is the regular checking of the size and individual selection because the height of students in one class depends on their individual development and can vary considerably. In other words, each student needs a chair and table which suits his or her height.

Children vary in size. This is why they often sit at furniture combinations that are not suited for them. Appropriately sized furniture is essential for optimum concentration levels and growth. Without correctly sized furniture, students could suffer from posture damage, and head and back pain.

The six chair sizes can be easily recognized by their colored dots. They range from a seat height of 12 1/4 inches in size 2 up to a seat height of 20 1/8 inches in size 7. The corresponding table heights range from 20 7/8 inches to 32 3/8 inches. This range provides students, whether they are 3 foot 6 inches or 6 foot 9 inches tall, with the correct sitting and working conditions.

# HOKKI HOKKI+

<b>Hokki</b> Stool.	<b>Hokki+</b> Height-adjustable stool.	
 <b>Model 03825</b> 5 heights	 <b>Model 03813</b> h: 15-19 3/4	 <b>Model 03814</b> h: 19 3/4-26 3/4

- 12 1/4"
- 15"
- 18 1/8"
- 20 1/8"
- 24 1/2"
- 15-19 3/4"
- 19 3/4-26 3/4"

Available in 5 heights and 2 height-adjustable sizes.

**Safe and Stable**

The **Hokki** stool by VS is a true original, with an innovative design that allows you to easily and safely move without tipping over. Engineered for incredible stability, the **Hokki** wobble stool is very safe to use.

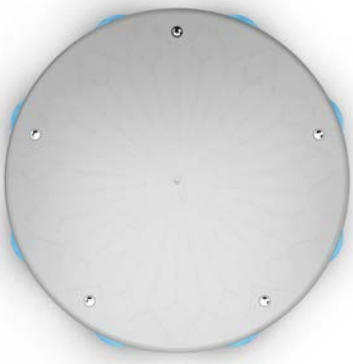

**Easy Transport**

The **Hokki** stool is light and easy to carry, as well as stackable for a way to quickly maximize your space. The **Hokki** is also available with an optional extra-soft, padded, artificial leather cover.

**Hokki+**

The **Hokki+** is the height-adjustable Hokki, available with a height adjustment range of 15 to 19 3/4 inches or 19 3/4 to 26 3/4 inches. The **Hokki+** has a gas spring height adjustment with anti-twist protector, resulting in overall stability and seating comfort. The adjustment mechanism is immediately accessible and can be triggered from any position.

**Iconic Wobble**

The **Hokki** is designed to promote flexibility and freedom of movement. The floor safe rubber base of the **Hokki** features a convex shape, allowing for a natural, 360-degree range of motion. This added motion and balance makes it easy to stay focused and engaged, perfect for students and professionals alike.

**Durability**

100% recyclable and constructed with a stable and highly scratch-resistant polypropylene. The **Hokki** stool goes through vigorous testing to ensure a high quality, safe, and durable product that holds up to the demands of students.

**Scalloped Edge**

The **Hokki** stool has a unique scalloped edge, allowing for an innovative hang-on desk feature – perfect for maximizing space.

# PANTOSWING

**PantoSwing-LuPo**  
Cantilever chair.

**Cantilever Chair**

With this chair, a change of position changes the inclination of the seat – in the forward-sitting position, the seat also inclines forward, which stimulates the spine to balance dynamically and also stabilizes posture. The **PantoSwing’s** dynamic seat encourages regular changes of sitting positions, which is very important ergonomically. Such dynamic sitting has been shown to activate both the body and mind, and to increase the attention of students.

**Glides**

With the right glides, the **PantoSwing** is perfectly equipped for any floor. 2-component universal glides are specifically designed by VS to protect hard floors, yet can be used on all floor types. Plastic glides are recommended for carpeted floors, and felt glides are another option for hard floors.

**Putting Chairs on Tables**

The **PantoSwing** can be fitted with an optional table-edge protector for piggyback chair mounting.

S	M	L	XL
12 1/4"	13 3/4"	15"	17"
12 1/4"	13 3/4"	15"	17"
12 1/4"	13 3/4"	15"	17"
12 1/4"	13 3/4"	15"	17"
12 1/4"	13 3/4"	15"	17"

Available in all 6 heights with 4 seat shell sizes, making this the perfect chair for every student.

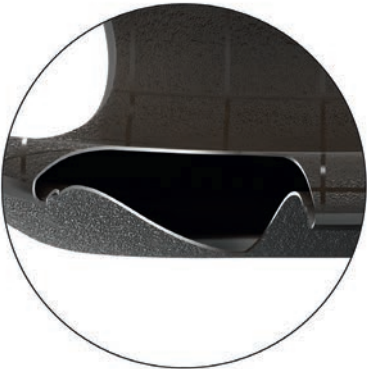

**12-Gauge Steel**

The **PantoSwing** is made from bent, powder-coated or chrome-plated round steel tubing.

**Durability**

Material and load tests are carried out in our own testing labs to ensure the utmost quality and durability, and products are also tested by external test institutes.

**Double Wall Plastic**

The **PantoSwing** seat shell is made of double-walled textured polypropylene for comfortable sitting with an air-cushion effect.

# PANTOMOVE

## PantoMove-LuPo

Height-adjustable star-foot chair and stool.

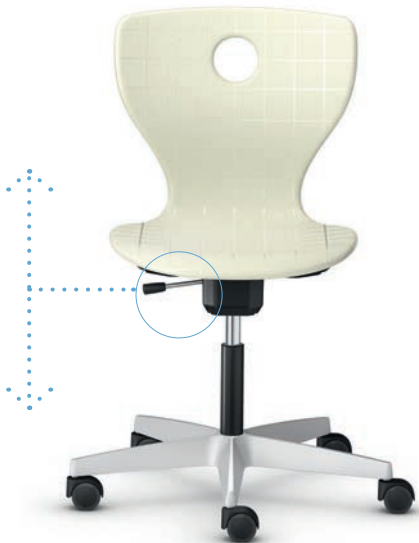

31505  
h: 13 1/4-16 3/4

31506  
h: 16 1/2-21 1/2

31507  
h: 19 5/8-27 1/2

### Continuous Height Adjustment

The **PantoMove** and **PantoMove-Plus** chairs are height adjustable, so the seat height can quickly and easily be changed according to individual requirements.

The seat height of the **PantoMove** can be adjusted from 13 1/4 to 16 3/4 inches in our smaller model and from 16 1/2 to 21 1/2 inches in our larger model.

The adjustability of the **PantoMove-Plus** ranges from 19 5/8 to 27 1/2 inches, making it suitable for working at sit/stand tables or sitting at standing tables.

### Adjustable Foot Ring

The **PantoMove** and **PantoMove-Plus** can be fitted with a patented adjustable foot ring. With the touch of a button it can be positioned so that the feet can be placed at exactly the right height when sitting. This takes the strain off the thighs.

### 3D Rocking Mechanism

The **PantoMove** has a patented 3D rocking mechanism for even greater dynamic sitting. The seat area reacts to every change of weight and leans gently forward, backward, or sideways. In this way, it continuously supports changes between different sitting positions in an ergonomically sensible way.

### Castors or Glides

The **PantoMove** is available with castors specifically for hard or soft flooring. Alternatively, there are three varieties of glides also available. 2-component universal glides are specifically designed by VS to protect hard floors, yet can be used on all floor types. Plastic glides are recommended for carpeted floors, and felt glides are another option for hard floors.

Soft floor castors    Hard floor castors

Standard Glides

### Chair Hanging

Many models of the **PantoMove** come standard with a piggyback hook for chair suspension on tabletops. The underside of the hook is made of non-slip material. That way the chair stays firmly on the tabletop and the surface of the table is protected, allowing for easy cleaning of the floor and tabletop.

# RONDO

**Rondo-Fix**  
Four-legged stool.

**03827**  
h: 18 1/8

**03828**  
h: 19 3/4

**03829**  
h: 21 5/8

**Rondo-Lift**  
Height-adjustable star-foot stool.

**03822**  
h: 14 3/4-19 3/4

Multiple Heights

The **Rondo-Fix** stool is available in 3 heights at 18 1/8, 19 3/4, and 21 5/8 inches.

Stackable

The **Rondo-Fix** stool is stackable, allowing for easy transport or just to maximize space when not in use. Up to 15 chairs can be stacked at a time.

Continuous Height Adjustment

The **Rondo-Lift** stool is height-adjustable, so the seat height can quickly and easily be changed according to individual requirements.

The seat height of the **Rondo-Lift** stool can be adjusted from 14 3/4 to 19 3/4 inches.

# SOLO

**Solo**  
Four-legged stool.

**03826**  
h: 20 1/8

4 Height Foot Ring

The **Solo** stool comes in one fixed standard sitting height of 20 1/8 inches, and has 4 foot rings positioned at different heights for use as footrests. These foot rings make the **Solo** stool easy to be used by students of all heights.

Stackable

The **Solo** stools can easily be stacked, up to 5 stools at a time.

# SHIFT+

## Recreating the learning environment

**Shift+** is a unique set of tools, enabling educators to easily create their own environments. All of the **Shift+** furniture adapts to a multitude of teaching and learning styles simultaneously, fulfilling the needs of the specific occupants of the space at a precise point in time.

Our goal is to allow educators to begin with a blank canvas by selecting a set of tools that respond to their specific learning and teaching environments. From there they can efficiently move selected accessories in and out of the space depending on what they are trying to accomplish.

With **Shift+**, students and teachers are in a position to make new configurations themselves, without having to call on others for assistance.

**Shift+** uniquely allows us to support the unlimited variety of learning possibilities and teaching styles in the most simplistic way possible. Every component within the **Shift+** family is light, mobile, and can be easily reorganized. They can be efficiently stacked, creating open areas. They are not constrained to a specific educational space – they are specifically designed to be transitioned and re-purposed throughout a school facility.

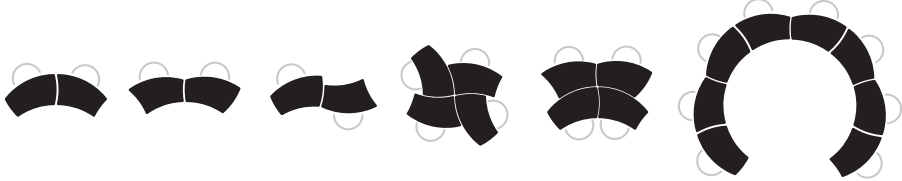

# SHIFT+ THUMBPRINT

### Mobile Desk

An easy to move, lightweight desk with flexible use positions. The convex- or concave-shaped tabletop sides ensure the tables can be combined in a variety of ways - into circles, rows, groups, and more. **ThumbPrint** tables increase the combination possibilities and open up configurations for a truly flexible design.

### Multiple Configurations

Traditional school furnishings quickly reach their limits when it concerns differentiation. Shift+ is free from such limitations and opens endless possibilities.

### Shift+ ThumbPrint

Stackable four-legged table.

**01440**  
6 heights  
w x d: 38 1/8 x 23 1/4

**01441**  
6 heights  
w x d: 38 1/8 x 23 1/4

### Tabletop Protector

Each table is fitted with stacking protection on the underside of the casing frame, ensuring tables are kept safe while stacked and not in use.

### Stackable

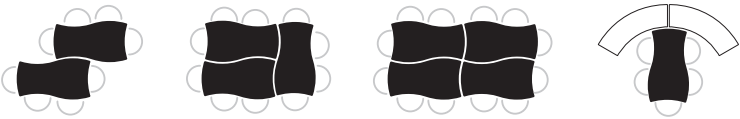

The tables are stackable and mobile (stackable up to six desks, mobile up to three stacked desks).

- 20 7/8"
- 23 1/4"
- 25 1/4"
- 28"
- 30"
- 32 3/8"
- 32 1/4-32 3/8"

Available in all 6 heights or with adjustable height legs.

# SHIFT+ FUSION

### Mobile Group Table

The simply-combined, free-form four-legged **Fusion** table can be used for the most diverse group sizes. The desks can be pushed together as needed to create spaces for larger groups. Castors on all four table legs provide for problem-free mobility and the desks can be easily arranged by students of all ages.

- 20 7/8"
- 23 1/4"
- 25 1/4"
- 28"
- 30"
- 32 3/8"
- 23 1/4-32 3/8"

Available in all 6 heights or with adjustable height legs.

### Space Saving

The **FusionFlip** is a free-form table with a foldable top. This way the tables can be nested together to save space if they are not in use.

### Two-Handed Safety Release

The top of the **FusionFlip** is folded by using two hands on the safety pulls, this way the table is never flipped by accident. The top locks when in horizontal or flipped positions for added safety.

### Shift+ Fusion

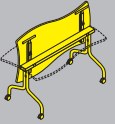

Four-legged table.

**01445**  
6 heights  
w x d: 55 1/2 x 32

### Shift+ FusionFlip

Folding top table.

**01446**  
3 heights  
w x d: 55 1/2 x 32

# FusionFlip

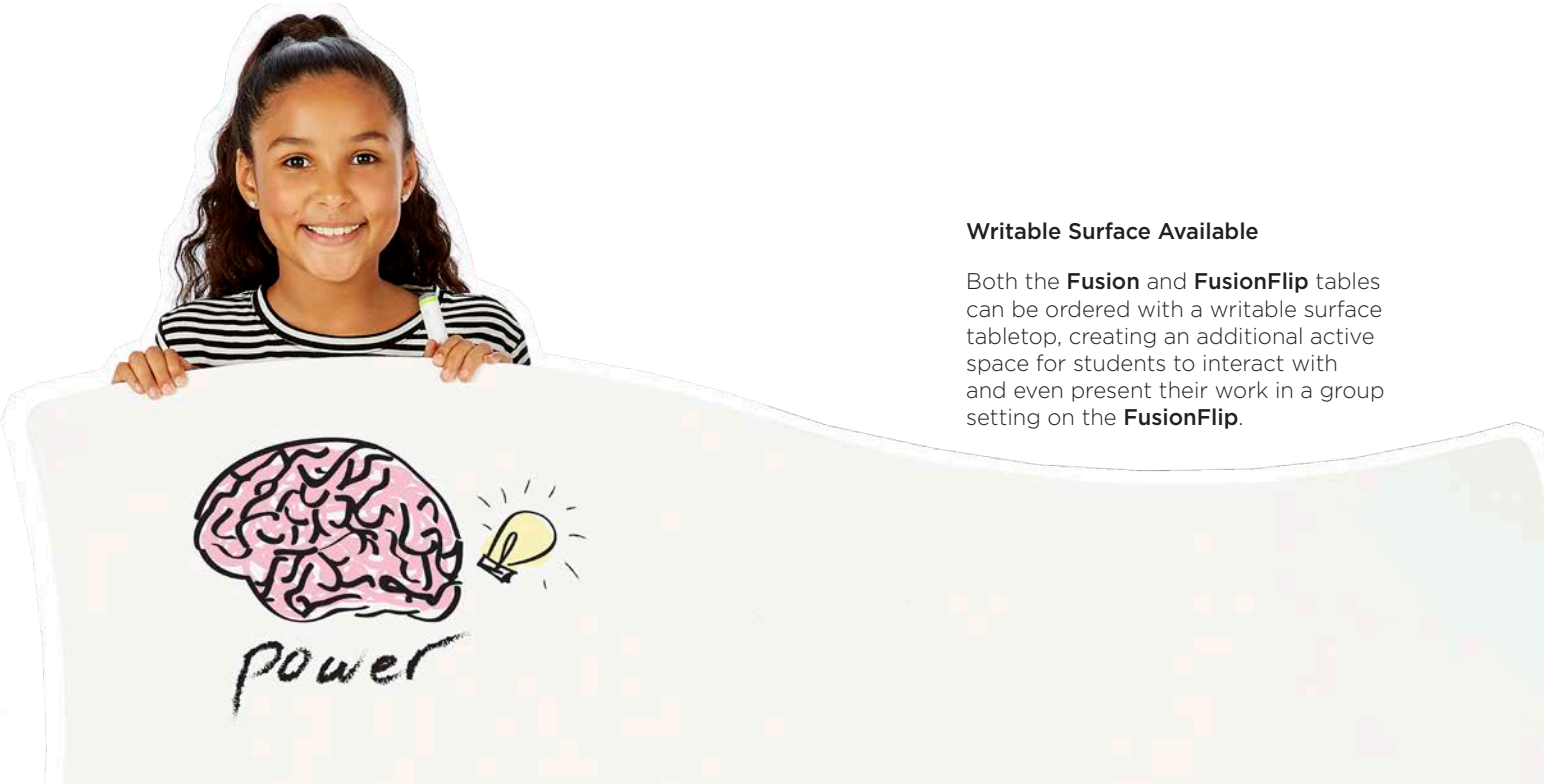

- 28"
- 30"
- 32 3/8"

Available in 3 heights.

### Writable Surface Available

Both the **Fusion** and **FusionFlip** tables can be ordered with a writable surface tabletop, creating an additional active space for students to interact with and even present their work in a group setting on the **FusionFlip**.

# SHIFT+ BASESTATION

## Shift+ BaseStation

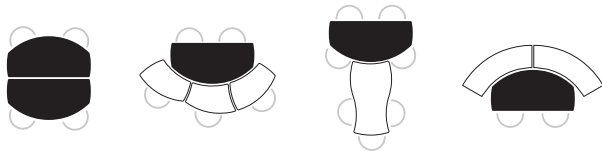

Semicircular tables.

**01442**  
6 heights  
w x d: 63 x 30 3/4

**01443**  
6 heights  
w x d: 63 x 30 3/4

### Mobile and Multi-Functional Table

Mobile five-legged group table with a straight side and a semicircle side. This semicircular group table can be integrated directly into various student desk configurations. A good wall contact is also provided on the straight side. The table can be set up as a mobile computer space with integrated monitor arm and CPU.

### Sharable

The **BaseStation** has a depth of just over 30 inches, allowing it to fit through most doors. The castors on all legs allows for any teacher or student to easily move it to its next location.

### Lockable Drawer

The **BaseStation Tech** is equipped with a lockable drawer for a laptop or device.

- 20 7/8"
- 23 1/4"
- 25 1/4"
- 28"
- 30"
- 32 3/8"
- 23 1/4"-32 3/8"

Available in all 6 heights or with adjustable height legs.

## Shift+ Landscape

Soft seating elements.

**09325**  
3 heights  
w x d: 20 3/4 x 20 3/4

**09328**  
3 heights  
w x d: 41 5/8 x 20 3/4

**09329**  
3 heights  
w x d: 43 3/8 x 20 3/4

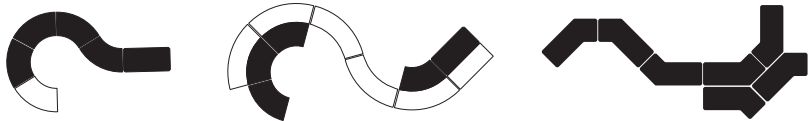

**09326**  
3 heights  
w x d: 55 1/2 x 28 5/8

**09327**  
3 heights  
w x d: 55 1/2 x 28 5/8

# SHIFT+ LANDSCAPE

### Glides

The **Landscape** elements are available with three varieties of glides. 2-component universal glides are specifically designed by VS to protect hard floors, yet can be used on all floor types. Plastic glides are recommended for carpeted floors, and felt glides are another option for hard floors.

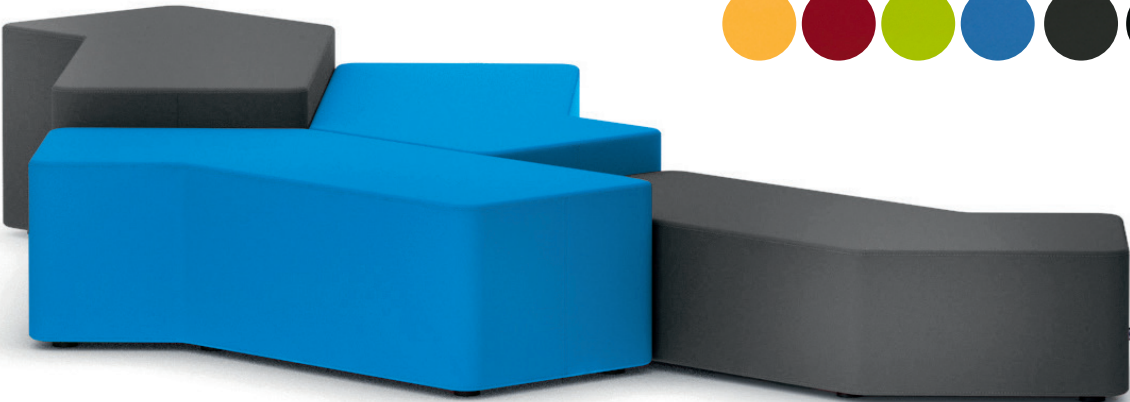

- 2-Component
- Plastic
- Felt

### Seating Elements

With the **Landscape** seating elements, learning environments and differentiated zones within the classrooms can be simply and quickly formed. The straight, 60°, and angled seating elements are available in different heights. They offer useful basic elements for the organization of group seating areas with more informal character.

### Durable Coverings

Resistant and durable, Stamskin is a material that is extremely easy to clean by simply washing with a mild cleaner to restore the fabric to its original appearance.

- 11 7/8"
  - 15"
  - 18 1/8"
- Available in 3 heights.

# SHIFT+ TRANSFER

## Shift+ Transfer

Mobile shelving and storage cabinets.

**45292**  
h: 37  
w x d: 60 1/8 x 16 3/4

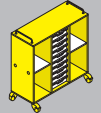

**45293**  
h: 43 3/8  
w x d: 60 1/8 x 16 3/4

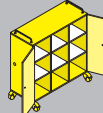

**45306**  
h: 37  
w x d: 64 1/4 x 20 7/8

**45325**  
h: 43 3/8  
w x d: 41 5/8 x 16 3/4

**45326**  
h: 43 3/8  
w x d: 41 5/8 x 16 3/4

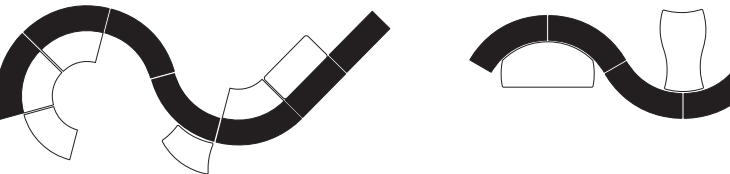

**45328**  
h: 43 3/8  
w x d: 41 5/8 x 16 3/4

**45329**  
h: 43 3/8  
w x d: 41 5/8 x 16 3/4

**45330**  
h: 43 3/8  
w x d: 41 5/8 x 16 3/4

### Mobile Storage

The **Transfer** mobile shelving elements are available in two heights. They can be formed into various combinations and together with the seating elements create separated group areas. The mobile shelving elements can also be equipped to accommodate storage boxes.

### Solid Steel Frame

The **Transfer** units have bases made from welded steel, providing superior strength and longevity. They also have crossbars across the bottom for exceptional rigidity – ensuring that the shelving elements don't wobble.

### Strong Magnet Connection

Connecting magnets on each side secure multiple elements together – allowing a more flexible configuration. Some elements are available with double-sided shelves.

### Lockable Doors

The **Transfer** cabinet elements are helpful for equipping any rooms in need of lockable doors. They are available in two heights with castors or adjustable feet. Connecting magnets on each side secure multiple elements together, or they can be used as a stand-alone unit.

Optional with adjustable feet on all **Shift+ Transfer** elements.

### Storage Options

The mobile storage cabinets are available in two heights and can be equipped to accommodate storage boxes. There are endless possibilities when it comes to configuration. Connecting magnets on each side secure multiple elements together or they can be used as a stand-alone unit.

### Mix and Match Bin Sizes

Any configuration of 3" or 6" bins can be used in **Transfer** units. This means you can mix different sized bins for the utmost usability for whatever your space requires.

# SHIFT+ INTERACT

**Shift+ Interact**  
Height-adjustable teacher lectern.

 **01444**  
h: 28-45 1/4  
w x d: 26 3/8 x 20

**Height-Adjustable Teacher Lectern**

The height of this teacher's lectern can be quickly adjusted from 28 to 45 1/4 inches, and due to the castors it can be easily moved around the classroom. Teachers can smoothly shift from standing and presenting to a group of students, to sitting down one-on-one with an individual student, in seconds.

To ensure unimpeded mobility, the work space is compact and the integrated storage space is minimized. Additional storage needs are covered by a separate teacher storage element.

**Same Curve**

The **Interact** has a curved top that fits all of the other Shift+ product curves, so it can nest with other desks and tables in an unlimited set of configurations.

# SHIFT+ TRANSFER TEACH

**Shift+ Transfer Teach**  
Mobile cabinet.

 **45319**  
h: 43 3/8  
w x d: 41 5/8 x 16 3/4

**Teacher's Personal Storage**

The **Transfer Teach** equips the teacher with a mobile storage space with lockable castors. As a freely mobile element, it can accompany the teacher anywhere in the room or building. All elements of Shift+ are designed so that mobility does not end at the door of the classroom.

**Lockable Door**

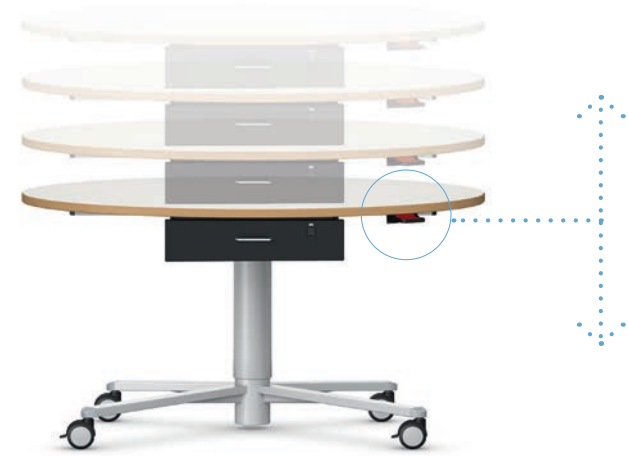

The **Transfer Teach** cabinet is helpful for equipping the teacher with a lockable door. Connecting magnets on each side secure multiple elements together, or they can be used as a stand-alone unit.

# TABLES

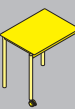

## Flexible tables for more creative classroom configurations.

Whether you're looking for modern student desks or flexible tables to maximize productivity and focus, or to facilitate collaboration and creative thinking, our collection has the solution. From height-adjustable and free-form tables in various sizes, all of our tables capture the design and execution of the ideal, productive learning environment.

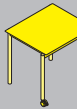

LITETABLE

LiteTable-ST  
Stackable table.

**21090**  
6 heights  
w x d: 27 5/8 x 21 5/8

**21091**  
6 heights  
w x d: 29 1/2 x 25 5/8

Stackable Table

The **LiteTable-ST** is made from welded round steel legs with a rectangular steel top frame, all powder-coated. It's available in all six heights so each student can find their perfect fit, and the tables are easily stackable. The **LiteTable-ST** has uniquely-spaced table legs so the tables can be lined up against each other to form a continuous row without gaps in between.

Stackable

The **LiteTable-ST** is stackable up to 8 and is equipped with stack protection at the lower edge of the top frame. Up to four stacked tables may be moved together on castors.

Welded Frame

The **LiteTable-ST** has a frame made from welded steel, providing superior table strength and longevity.

Castors or Glides

The **LiteTable-ST** is available with three types of glides. 2-component universal glides are specifically designed by VS to protect hard floors, yet can be used on all floor types. Plastic glides are recommended for carpeted floors, and felt glides are another option for hard floors. Optionally with two castors at the outer legs.

w x d: 27 5/8 x 21 5/8

**21019**  
6 heights  
w x d: 29 1/2 x 25 5/8

The Flexible Classroom

The **LiteTable-AL** offers the ultimate flexibility for multi-use spaces and agile classrooms. Durable round aluminum inner and outer legs are designed for easy stacking and connections between tables. A range of tabletop shapes and six heights allow mix and match configurations. And with castors and super lightweight construction, even a kindergartner can help set up the room or pack up for the day.

Stackable

The **LiteTable-AL** is stackable up to 8 and is equipped with stack protection at the lower edge of the top frame. The aluminum frame and lightweight top allows for any age group to easily rearrange, stack, and move.

Castors or Glides

The **LiteTable-AL** is available with 3 types of glides. 2-component universal glides are specifically designed by VS to protect hard floors, yet can be used on all floor types. Plastic glides are recommended for carpeted floors, and felt glides are another option for hard floors. Optionally with two castors at the outer legs.

# TRITABLE-II

**TriTable-II**  
Triangular table.

- 

**01433**  
7 heights  
w x d: 43 3/4 x 32 3/4
- 

**01434**  
7 heights  
w x d: 46 1/2 x 34 3/4
- 

**01435**  
7 heights  
w x d: 47 5/8 x 36 5/8

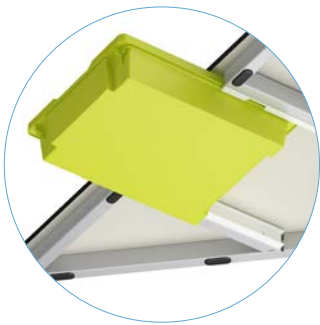

### Triangular Table

The **TriTable-II** is an ideal choice for flexible classrooms. Due to its ergonomic triangular shape, it can be used either as a stand-alone table or grouped together in many different ways to form a multitude of configurations. The single central leg castor allows for easy movement within the classroom, and TriTables are easily stackable too, making them suitable for smaller learning spaces, as well as more open learning environments.

### Optional Drawer

The **TriTable-II** is optionally available with a removable plastic tray on the long side of the table.

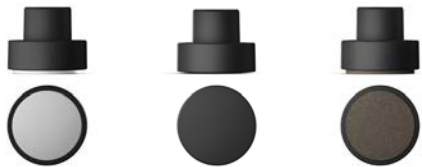

### Stackable

The **TriTable-II** is stackable up to 8 and equipped with stack protection at the lower edge of the top frame to protect the tabletops.

### Glides and Castors

2-component universal glides are specifically designed by VS to protect hard floors, yet can be used on all floor types. Plastic glides are recommended for carpeted floors, and felt glides are another option for hard floors. Optionally available with a castor at the 90° corner or with 3 castors.

2-Component   Plastic   Felt

- 15 3/4"
- 20 7/8"
- 23 1/4"
- 25 1/4"
- 28"
- 30"
- 32 3/8"

Available in all 6 heights and a new low to ground height 0.

# FLIPTABLE

**FlipTable-RU**  
Folding top table.

- 

**21028**  
3 heights  
w x d: 51 1/4 x 25 5/8
- 

**21029**  
3 heights  
w x d: 59 1/8 x 25 5/8

### Nesting

The **FlipTable-RU** has a foldable top, so the tables can be nested together to save space if they are not in use.

### Adaptable Table with Folding Top

Roll it around. Link them together. Flip it down. Nest it away. The **FlipTable-RU** has exceptional flexibility, functionality, and durability for classrooms, training rooms, meeting rooms, public areas, and cafeterias at a great value.

### Safety Lever

All of VS' fliptables are engineered with a two-lever safety mechanism to ensure the table is never flipped by accident. The top locks when in horizontal or flipped positions for added safety.

- 28"
- 30"
- 32 3/8"

Available in 3 heights.

# TRIUNION

### Teamwork at Eye Level

We developed the **TriUnion** in three heights so students of all ages, as well as teachers, feel comfortable using it.

For elementary school, the **TriUnion** is available as a 34 5/8 inch high standing table. Teachers can, for example, sit at the table using our Hokki stool (with a

24 1/2 inch sitting height) and communicate with the students at eye level.

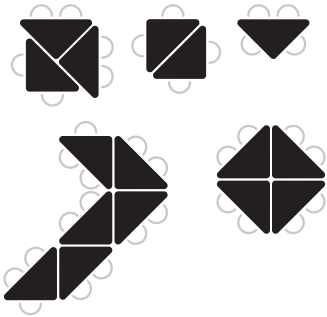

For middle and high school, the **TriUnion** with its 41 3/4 inch table height is ideal. A 47 1/4 inch table height is available for the teacher area, as well.

### Comfortable Foot Rails

A special characteristic of the **TriUnion** is the lower frame. It offers a foot rail all around in two heights. This way, everyone – regardless of their height – can comfortably rest their foot. And, change their standing position regularly.

The way the rails are structurally offset from one another lends itself to color accents.

The castors are available for soft or hard floors, and the table feet are available with felt and plastic glides, according to the type of floor.

### One Table, Several Possible Configurations

The **TriUnion** is a real combination artist. The triangular tabletop allows for a range of different configurations.

An optional linking mechanism (image above) ensures that the configurations are stable. The standing table can therefore be easily expanded for different group sizes.

### Highly Mobile

The ways learning is changing in today's school shows us that furniture must be movable – and the **TriUnion** delivers with top marks. We have also given it additional, very special qualities.

The standing table is built to be light, but with exemplary stability, and is robust and resilient, making

it well equipped for the everyday demands of schools.

It can easily be pushed, thanks to the castors, and it fits through any door wider than 35 1/2 inches. That way it can also be used across different classes.

TEAMTABLE

**TeamTable**  
Free-form stand-at table.

**01471**  
2 heights  
w x d: 65 x 44 7/8

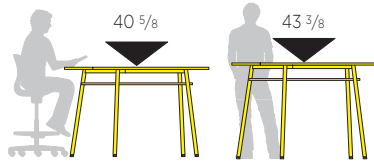

**Team Building**

The **TeamTable** brings it all together with a shape that enhances collaborative exchanges, and provides instant flexibility for changing work needs. Designed with a convenient storage shelf and steel powder-coated legs connected directly to a continuous frame for extra stability. The **TeamTable** comes in two heights at 40 5/8" and 43 3/8" and tabletop surfaces are available in several options.

**Standing Group Work**

**TeamTables** can easily be combined, allowing for larger group work with the same flexibility single **TeamTables** offer. People naturally gravitate to the multiple concave niches, and the table space allows everyone their own area while still offering proximity to all other participants.

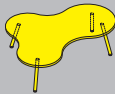

Available in 2 heights.

PUZZLE TABLE

**Puzzle Table**  
Free-form table.

**01470**  
6 heights  
w x d: 65 x 44 7/8

**Reshape the Conversation**

An innovative shape that invites collaboration, the **Puzzle Table** is offered in several colors, surfaces, and edge options to fit a variety of uses. And with six different heights, it is a fit for all K-12 environments. The tabletop is supported by steel legs connected directly to a continuous frame to accommodate active minds piloted by busy bodies.

- 20 7/8"
- 23 1/4"
- 25 1/4"
- 28"
- 30"
- 32 3/8"

Available in all 6 heights.

# RONDOLIFT

**RondoLift-KF**

**All-Around Performer**

The **RondoLift** table raises the bar for teachers and students. The fully-adjustable tabletop gives it sit-at or stand-at functionality. Lockable castors make it mobile. And the optional tilt mechanism allows it to be stowed in a snap or converted to a projection or display surface. Quick, creative options that help take education up a notch.

**Presentation Tilt**

The **RondoLift** can quickly be positioned for individual or group work while sitting or standing. And, with the writable laminate tabletop option, simply tilt the tabletop up to share work with classmates. This tilt mechanism also ensures that tables can easily pass through standard doors.

**Height Adjustable**

The **RondoLift** has a central post with an integrated gas-filled strut and hand switch on the tabletop edge so the table can quickly and easily be raised or lowered. The hand switch is fitted with a safety cover to protect against unintentional movement.

EUROLINE

EuroLine  
Rectangular table.

Perennial Favorite

Timeless design, durability, and flexibility at budget-friendly prices make the **EuroLine** the quintessential multi-purpose table. A smart choice for classrooms, media rooms, computer labs, as well as administration areas.

Welded Frame

The **EuroLine** table has a frame made from welded steel, providing superior table strength and longevity.

Glides

Plastic glides are recommended for carpeted floors, and felt glides ensure the best footing on hard floors.

# STORAGE

## Modular storage systems and classroom storage solutions

The right storage solution should elegantly organize, unify, and complement any space. With a diverse selection of modular storage systems, including specialized shelving and mobile cabinets, we are certain you will find storage that works for your school or organization.

Our modular systems are comprised of storage units crafted to provide personalization and versatility. From cabinets to filing systems, each design in our collection lends itself to a range of configurations, allowing you to meet the needs of your space. Whether you need some comprehensive classroom storage or solutions for large, multi-purpose spaces, our selection of custom options allows for a seamless transition while maximizing use of space.

Stow and Go

**Series 600 Cabinets** rise to the demands of today's flexible classroom. Design features include durable tubular steel framing, steel bottom, adjustable shelving, plastic bin options, and individual cubbies.

Teacher Storage

This **Series 600** stand-at storage cabinet makes it easy for teachers to find a home for any required teaching materials. The portable caddy helps keep teachers mobile, while enabling them to break free of the front of room model and still having all their files readily available. Name plate or coat hanger handle are optional.

Art Room

This cupboard is perfect for storing paper and crafts. It has a cupboard element with a double wing door, as well as seven drawers underneath for more supplies, keeping all resources at the ready for creative time.

Organization on the Go

The **Series 600** storage tote module is an open cabinet that holds small, medium, or large plastic boxes (sold separately). The boxes can be freely combined so the cabinet can be reorganized however it best fits the needs at that specific time.

Open Shelving

When materials are needed to be put away quickly, this open cupboard makes cleaning a snap. It has adjustable shelves so it can accommodate any mix of items that need to be stored.

Lockable

Secure your files using the **Series 600** lockable storage module, and know that your files will be undisturbed until the next time you need access.

Clean Rooms

Keep backpacks, shoes, and jackets neatly out of the way with these **Series 600** cupboards, making it easy for students to get and stay organized.

# FINAL TOUCHES

All of us at VS understand that each and every school is unique, and we're dedicated to working with you closely to make sure your space gets exactly what it needs. Explore our various

glide, castor, and tabletop options and choose those that are the perfect fit for your environment. Or contact VS anytime and we can help you finalize your selections.

## GLIDES

Stability

There are three varieties of glides available:

**2-component universal glides** - specifically designed by VS to protect hard floors, yet can be used on all floor types

**Plastic glides** - for carpeted floors

**Felt glides** - another option for hard flooring like parquet, tiles, stone, or screed

## CASTORS

Mobility

There are two varieties of castors available:

**Soft floor castors** - developed by VS for all floor types

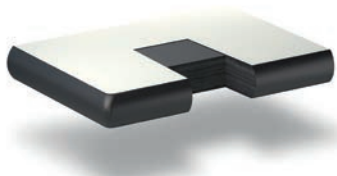

**Hard floor castors** - for hard flooring like parquet, tiles, stone, or screed

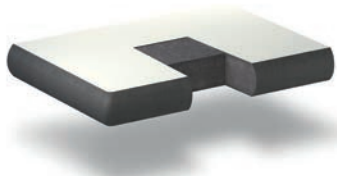

## TOPS

Durability

There are multiple varieties of tabletop materials available. Here are a few of our bestsellers:

**Compressed Solid Core**  
Solid core, high-quality top based on laminate papers that are pressed under high pressure and high temperature.

**Compact Density Fiber Board**  
Solid core, high-quality top based on cellulose fibers that are pressed under high pressure and high temperature.

**LIGNOpal**  
Three-layer chipboard that is compacted from glued wood chips. The surface is laminated on both sides. A plastic penetrates the edge of the chip structure and the edge bonds with the board.

# MATERIALS

## Wide Color Palette: More options for combinations and contrasts.

Use color **accents** in space planning by coordinating various materials like wood and metal or plastic and laminate surfaces in perfectly harmonizing (or complementary) colors.

**Steel tubes** of table frames or storage elements are included in this interplay of color: subtle variations within the color palette or effective contrasts can be created.

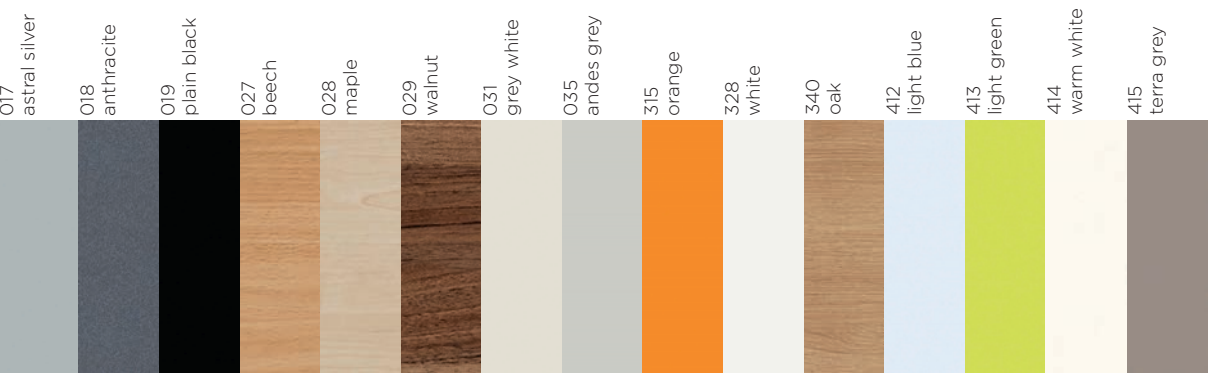

**Plastic elements** like the comfortable, air-cushioned seat shells of the VS chairs offer the option to add colorful accents in the room.

**Laminates** for tabletops and cabinets are organically integrated into the color palette.

# CERTIFICATES

## Strictly monitored and safe

We feel a responsibility towards our employees, our environment, and society. Our corporate principles include sustainability in production and the durability of our furniture. We regularly subject our products to independent inspections regarding their quality, safety, and environmental responsibility.

We manufacture all our furniture in Germany in an environmentally responsible and equitable way. We design our tables and chairs to fulfill ergonomic criteria. Prestigious national and international certificates testify to our high standards in terms of environmentally responsible production quality.

Fire protection classification in accordance with DIN EN 1021, Part 1 (medium), DIN EN 1021 Part 2 (medium), and DIN 54341 (high)

Label issued by the Healthy Backs Campaign (Aktion Gesunder Rücken e.V) for products that are very highly recommended due to their ergonomic design

The BIFMA sustainability standard

GS "tested safety" label - awarded by the TÜV inspection authority on the basis of the German legislation on product safety

"Greenguard - Indoor Air Quality" certificate, the U.S. equivalent of the LGA "pollutant-tested" certificate

LGA "pollutant-tested" certificate guarantees that the pollutant limit values correspond to or are well within the legal requirements

PEFC certificate for timber from sustainably managed forests and controlled sources

Quality label of the Federal association for posture and movement promotion (Bundesarbeitsgemeinschaft für Haltungs- und Bewegungsförderung e.V)
